Comments of Management

Liron Eizenman, Silicom's President and CEO, commented, "We are pleased to report a strong Q1 with 16% growth in revenues and 38% growth in our EPS demonstrating the benefit of our leveraged business model. With ongoing profitability and strong cash flow, we have renewed our share buyback program, a clear demonstration of our confidence in our business strategy and our commitment to create shareholder value."

Mr. Eizenman continued, "In fact, we continue to experience high demand for our unique Edge Networking solutions. During the quarter, we announced three strategic new Edge design wins from leading SD-WAN, SASE and Unified Communication players, each confirming our positioning as the market's Edge Platform Provider of Choice. Our full-service value proposition, including best-in-class products, rapid customization/delivery capabilities and uncompromising support, are bringing us a broad range of customers, many of which turn to us to help them overcome the challenges of transitioning to the Edge Platform paradigm. With each new win and product enhancement, our reputation strengthens, positioning us to benefit strongly from the continued growth of Edge Networking demand, which we expect to serve as our primary growth driver for the next several years.

"At the same time, the two recent NIC design wins from a cyber security giant that we announced just last week, both of which are critical to the performance of the customer's solutions, demonstrate the ongoing power of our traditional product lines to continue playing an important role in our growth."

Mr. Eizenman concluded, "Given the strong growth of our target markets, our expanding total addressable market, our proven design win momentum and the leverage inherent in our business model, we believe we are positioned for continued growth in both revenues and profits."
