

Silicom SVHC Declaration

Silicom, Ltd
14 Atir Yeda str., Kfar Sava, 44000, Israel
Tel: (972)-9-7644555

25 June 2025

Regulation (EC) 1907/2006 aims to ensure a high level of protection of human health and the environment. According to this commonly called REACH regulation, most chemical substances and mixtures must be pre-registered.

Silicom Ltd does not have to register any substances or notify the European Chemical Agency (ECHA) on any substances/mixtures used and we provide this information as a service to our customers.

Some Silicom vendors have declared that their products contain SVHC substances above the concentration limit of 0.1% W/W (as detailed on page 2) included in the EU REACH candidate list of Substances of Very High Concern.

This data is based both on FMD reports and on declarations.

The current number of substances in the Candidate List = 250

The updated list of substances may be found in the link below:

<https://echa.europa.eu/candidate-list-table>

Some of Silicom products may contain SVHC substances declared by Silicom suppliers:

<u>Substance name</u>	<u>CAS No.</u>	<u>comments</u>
Lead	7439-92-1	
Lead monoxide (lead oxide)	1317-36-8	
Diethylene glycol monobutyl ether for synthesis	112-34-5	Annex XVII
2-methyl-1-(4-methylthiophenyl)-2-morpholinopropan-1-one	71868-10-5	
Diboron trioxide	1303-86-2	

*** For detailed information please ask our compliance group- compliance@silicom.co.il for the detailed REACH report.
